Make a success as part of culture.

Make a social contribution.

These are the purpose of launch.

President Yushin Fujiwara

Greeting from CEO

In the 21st century has been called 'culture era' such that company and consumer have a stronger interest to the culture. Japan gained unprecedented wealth with economical growth and now, society has reached maturation of economic and social activities. The maturation enhances standard life of living, a balance between human and nature, and human relationship which are sometimes overlooked. In other words, style of society and market has changed and people's perception has changed which causes 'culture' to be an important factor in our daily life.

The service of Yushin Trading Company is to invest in trading but we try to understand business structure of clients' that the core objective, meeting clients' and societies' needs and sees, could be corresponded.

Yushin Trading Company is been accommodative to changing society and business for providing leading edge technology. In order to chase the best quality and service, a strong financial strength and skills to manage high risk, we believe manpower is asset that composed of foresight, leverage, originality and ingenuity.

Yushin Trading Company is adaptable to the era mentioned above and is able to become your best partner for a global optical production to fulfill clients' needs.

We believe in honesty that will gain clients' respect and trust.

CEO /President Yushin Fujiwara

Yushin Fujiwara is the founder and president of Yushin Japanese Trading Corp.

Yushin Fujiwara was born on December 17, 1979 in NANCHANG of CHINA.

After Keio University graduation. He worked as a Sales man with experience in international marketing and sales.

He set up his first company in 2007. He moved to China from Japan in 2007 to pursue his lifelong dream of bringing Japanese technology into China.

He has a very keen eye on the future and has constantly been the leader of his time, setting new trends in the industry.

Greeting from CEO

YUSHIN TRADING Co., Ltd.

Business Profile

New solutions for a new era

The time for companies to merely procure items to sell to customers has ended . We believe that as trading company of tomorrow, we must be able to provide solutions for the customer fs process of developing and manufacturing products . For this reason, YUSHIN TRADING has reinforced four functions, which derived from the traditional functions as a trading company : the function to purchase and distribute, the function to manage quality and the environment, the function to provide processing services and the function to plan and develop to carve out the path to the next generation.

As suggested, the functions and roles of the YUSHIN TRADING consistently change along with the needs of each era , which could provide added value that goes beyond the boundaries of trading companies of the past .

Purchase and Distribution Service

YUSHIN TRADING will carry out the functions of the customer fs purchasing department such as purchasing and distribution. This service will shorten inventory time as distribution operation is streamlined. For purchasing operation, we select the most suitable manufacturers from an expanding selection of manufacturers throughout the world to order components from and thoroughly carry out quality control and delivery management by making full use of our expertise. We can deal speedily with faulty goods. By making full use of their expertise and know-how in this field, they are now actively developing an integrated international purchasing and distribution, and also operating purchasing and distribution in developing countries, especially in Southeast Asia and China .
